Zenmuse Z3 Release Note

Date:	2017.02.21
Firmware Version:	V 1.10.1.40
DJI GO app iOS	V3.1.5
DJI GO app Android	V3.1.3

What's New?

- Optimized Flight Restriction Zone management by deleting flight restrictions for some abandoned airports.
- Slowed motor stopping time to three seconds during flight.

Note:

- Firmware V1.10.1.40 is used to update the Inspire 1 series synchronously, but can only be used to update the firmware of the aircrafts, not the camera firmware.
- Aircraft version v1.10.1.40 and camera version v1.9.1.40 should be displayed in DJI GO. The version will only display correctly in DJI GO after connecting to the Internet when upgrade is complete.
- The firmware can only be downgraded to v1.9.1.30 or later.
