How to Update the Firmware of CrystalSky

1. Visit the official DJI website and go to the CrystalSky page, download the latest firmware package.

2. Extract the firmware package, and copy the extracted file (CS785/CS785U: ZS600B_xxx.bin; CS550: ZS600A_xxx.bin) to a Micro SD card.

3. Insert the Micro SD card into the Micro SD card slot of the CrystalSky.

4. Power on the CrystalSky, enter System Settings > System Update, click Local Update on the top-right corner. The latest firmware will show on Micro SD card. Click Update to start updating.

Notes:

• DO NOT insert the Micro SD card to a card reader and use the USB port of the CrystalSky to update.
