**DJI P1 Release Notes**

**Release Date:** 2023.04.26  
**DJI P1 Firmware:** v07.00.01.10  
**Firmware Upgrade Method:** DJI P1 - SD card / Update All in App

**Other Product Firmware and Software Required:**  
- M300 RTK aircraft firmware: v06.01.01.00  
- M300 RTK remote controller firmware: v06.01.01.00  
- DJI Pilot App 2 Android: v6.1.2.3

**What’s New?**

- Fixed issue where the camera cannot stop taking photos when pressing the shutter button in Timed mode after frequently switching between Timed mode and Video mode.

**Notes**

- After updating to the latest firmware version, the user cannot downgrade to v03.00.01.04 or earlier.
- Make sure that the aircraft firmware, remote controller firmware, DJI P1 firmware, and DJI Pilot app firmware are updated to the latest.
DJI P1 Release Notes

Release Date: 2022.09.28
DJI P1 Firmware: v04.00.02.05
Firmware Upgrade Method: DJI P1 - SD card / Update All in App

Other Product Firmware and Software Required:
- M300 RTK aircraft firmware: v04.01.00.00
- M300 RTK remote controller firmware: v04.01.01.01
- DJI Pilot App Android: v4.1.1.14 (M300)

What’s New?

- Added support time synchronization and position compensation when using with the DJI DL 24mm/50mm F2.8 LS ASPH Lens.
- Fixed issue: HMS prompts lens infinity focus is not calibrated after Infinity Focus Calibration is performed by the user.
- Fixed issue: the AWB difference is too large in some scenarios.

Notes

- After updating to the latest firmware version, the user cannot downgrade to v03.00.01.04 or earlier.
- Make sure that the aircraft firmware, remote controller firmware, DJI P1 firmware, and DJI Pilot app firmware are updated to the latest.

### What's New?

- Added 0.7s shooting interval to manual Timed Shot.
- Added support to transcode satellite observation files from binary format to Rinex format in real-time.
- Fixed issue: when a new folder was created, the PPK data for the last 10 seconds of the old folder was incorrectly stored to the new folder.
- Fixed issue: could not record MRK and PPK files when taking photos in DNG format.
- Fixed issue: could not record exact location and time stamp when taking photos in DNG format.
- Fixed occasional issue: shots missed during Smart Oblique flight.

### Notes

- Make sure that the aircraft firmware, remote controller firmware, DJI P1 firmware, and DJI Pilot app firmware are updated to the latest.
DJI P1 Release Notes

Release Date: 2021.05.10
DJI P1 Firmware: v02.04.01.02
Firmware Upgrade Method: DJI P1 - SD card / Update All in App

Other Product Firmware and Software Required:
- M300 RTK aircraft firmware: v02.04.01.02
- M300 RTK remote controller firmware: v02.04.01.03
- DJI Pilot App Android: v2.4.1.7 (M300)

What’s New?

- Added lens activation. Activation will be triggered after firmware is updated.
- Added one second timed shot in DJI Pilot when taking photos manually.
- Added Oblique GSD in DJI Pilot.
- Optimized resumption of interrupted flight route tasks in Smart Oblique. Aircraft will return to breakpoint and adjust to flight speed and complete shooting sequence of previous waypoint.
- Optimized camera exposure compensation to improve exposure accuracy of entire flight route.
- Improved calculation accuracy of frontal overlap ratio in Smart Oblique.
- Optimized estimation of photo numbers and flight time in Smart Oblique.
- Fixed issue: white spots appeared in corners of DNG photos.
- Fixed some minor bugs.

Notes

- Follow steps to activate lens when prompted in DJI Pilot.
- Make sure that the aircraft firmware, remote controller firmware, DJI P1 firmware, and DJI Pilot app firmware are updated to the latest.
DJI P1 Release Notes

Release Date: 2021.03.11
DJI P1 Firmware: v02.02.03.02
Firmware Upgrade Method: DJI P1 - SD card / Update All in App

Other Product Firmware and Software Required:
- M300 RTK aircraft firmware: v02.02.02.01
- M300 RTK remote controller firmware: v02.02.01.02
- DJI Pilot App Android: v2.2.1.7

What’s New?

- Reduced motion blurring that occasionally occurred when shooting some photos in Smart Oblique.
- Reduced screen blurring and freezing during video transmission in Smart Oblique.
- Fixed occasional issue: false gimbal overload warning prompt was sent.

Notes

- Make sure that the aircraft firmware, remote controller firmware, DJI P1 firmware, and DJI Pilot app firmware are updated to the latest.
