

Date	March 31, 2015
DT7 Firmware version	1.0.2.26
RC System Assistant Software version	1.2

---

## New Features:

### DT7 Remote Controller

1. Replaced the slide lever on the left with a new dial for gimbal control
2. Added battery level indicators
3. Added a throttle lock function
4. Added a trainer port
5. Power is now supplied by a LiPo battery

### Important:

- DT7&DR16 RC System is compatible with following DJI flight control systems: **NAZA-M Lite, NAZA-M, NAZA-M V2, WooKong-M and A2.**
- For safety reasons, do not use the power battery for power supply during firmware upgrade.
- Remember to reconfigure all parameters in the Assistant Software after firmware upgrade.

Date	December 2, 2013
DT7 Firmware version	1.0.1.0
RC System Assistant Software version	1.1

---

## Function:

### DT7 Remote Controller

1. 5 proportional channels (including Slide Lever) and 2 3-Position switch channels.
2. Low voltage alert.
3. Non-operation alert occurs if sticks in A\E\T\R channels are centered without movements in 15 minutes.
4. Firmware is upgradable using the RC System Assistant Software.

### DR16 Receiver

1. Up to 16-channel remote controller support.
2. 2.4GHz D-BUS System.

## Important:

- DT7&DR16 RC System is compatible with following DJI flight control systems: **NAZA-M Lite, NAZA-M, NAZA-M V2, WooKong-M and A2.**
- For safety reasons, do not use the power battery for power supply during firmware upgrade.
