5. Prepare the Remote Controller

Unfold
Mount your mobile device

6. Prepare for Takeoff

Remove the gimbal clamp on the camera.

Power on the remote controller and the aircraft.

On your mobile device, select 'PHANTOM3_XXX' from the Wi-Fi networks and enter the default password '12341234'.

Activate your Phantom if you are using it for the first time. This requires an internet connection.

Launch the app and tap Enter Camera View, then follow the on-screen instructions.

Black propeller nuts go on motors with black dots.
Silver propeller nuts go on motors without black dots.

Tighten the propellers with both hands before each flight.
7. Flight

Safe to Fly (GPS)

Before taking off, ensure the Aircraft Status Bar in the DJI GO app indicates ‘Safe to Fly (GPS)’.

In the DJI GO App:

Auto Takeoff
The aircraft will take off and hover at an altitude of 4 feet (1.2 meters).

Auto Landing
The aircraft will land vertically and stop its motors.

Return-To-Home
Brings the aircraft back to the Home Point. Tap again to stop the procedure.

● The aircraft will not avoid obstacles while it is returning to the Home Point, and an appropriate RTH altitude MUST be set before flight. You should also use the control sticks to guide the aircraft. Refer to the Safety Guidelines and Disclaimer for more details.

Manual Takeoff

Combination Stick Command to start/stop the motors

OR

Left stick up (slowly) to take off

Manual Landing

Left stick down (slowly) until you touch the ground
Hold a few seconds to stop the motors

• Never stop the motors mid-flight, otherwise the aircraft will crash. Only stop the motors when the aircraft is on the ground or as required in emergency situations to reduce the risk of damage or injury.

8. Fly Safe

DJI encourages you to enjoy flying in a safe, responsible and smart way.

• Always fly under 400 ft

DO MONITOR YOUR ALTITUDE and fly under 400 feet (120 meters).

DO NOT FLY near or above people, near trees, power lines or buildings.

DO NOT FLY in rain, snow, fog, and wind speeds exceeding 22 mph or 10 m/s.

DO MAINTAIN LINE OF SIGHT and avoid flying behind buildings or obstacles that block your view.

It is important to understand basic flight guidelines, for the safety of both you and those around you. Refer to the Safety Guidelines and Disclaimer for more information.
