DJI Action 2 Release Notes

Date:	2021.11.23
Firmware:	v01.01.08.10
DJI Mimo App iOS:	v1.7.6
DJI Mimo App Android:	v1.7.6

What's New?

- Optimized camera exposure when using in scenes with low light.

- Optimized color accuracy on camera view.

- Optimized exporting speed when exporting files from the built-in storage to the microSD card.

- Reduced frequency flicker produced by indoor lighting.

- Optimized auto exposure.

- Optimized zoom adjustment.

- Improved microSD card compatibility.

- Added support so camera view automatically corrects if upside down during livestream.

- Fixed issue: front touchscreen module or the power module discharged even when not in use.

- Fixed occasional issue: microSD card cannot be detected.

- Fixed some minor bugs.

Notes:

- If the update fails, restart DJI Action 2 and DJI Mimo and retry.

- Contact DJI Support if the update fails again.
