

DJI Action 2 Release Notes

Date:	2022.3.16
Firmware:	v01.03.30.20
DJI Mimo App iOS:	v1.7.14
DJI Mimo App Android:	v1.7.14

What's New?

- Added a function that detects if the magnetic protective case is installed on the camera unit. A magnetic protective case greatly reduces situations of recording being stopped due to high temperature threshold.
- Updated where pressing and holding the power button for one second when the camera is powered off will skip Snapshot and power the camera on without triggering the recording function.
- Fixed an occasional issue where the camera view for Snapshot is displayed upside-down.
- Fixed some minor bugs.

Notes:

- If the update fails, restart DJI Action 2 and DJI Mimo and retry.
- Contact DJI Support if the update fails again.

DJI Action 2 Release Notes

Date:	2022.1.20
Firmware:	v01.02.10.10
DJI Mimo App iOS:	v1.7.12
DJI Mimo App Android:	v1.7.12

What's New?

- Added Steady and optimized power consumption when Steady is enabled or EIS is disabled.
- Added HorizonBalancing. HorizonBalancing keeps 4K footage level when the roll axis is tilted by up to 45°.
- Added low power mode for Timelapse. When enabled, the screen will turn off after starting recording for 10 seconds and the status LED indicator will be solid blue. Touch the screen to turn the screen on again; press the power/record button to stop recording.
- Optimized SnapShot. SnapShot can be enabled or disabled in settings. When SnapShot is enabled, press the power/record button to quickly take a photo or begin recording a video when the camera is powered off.
- Added support to start/stop recording by pressing the linking button on the DJI Mic transmitter (DJI Mic receiver must be connected to front touchscreen module or power module).
- Optimized method of adjusting camera zoom to tapping and holding zoom icon to reduce chance of accidental operation.
- Added function where screen will automatically lock when exporting internal storage files to a microSD card. Swipe to unlock.
- Optimized double confirmation for formatting a microSD card by swiping the screen to reduce chance of accidental operation.
- Improved microSD card compatibility.
- Optimized power efficiency of the front touchscreen module and power module when charging the camera unit.
- Added Horizon Calibration in settings to improve stabilization.
- Fixed some minor bugs.

Notes:

- If the update fails, restart DJI Action 2 and DJI Mimo and retry.
- Contact DJI Support if the update fails again.

DJI Action 2 Release Notes

Date:	2021.11.23
Firmware:	v01.01.08.10
DJI Mimo App iOS:	v1.7.6
DJI Mimo App Android:	v1.7.6

What's New?

- Optimized camera exposure when using in scenes with low light.
- Optimized color accuracy on camera view.
- Optimized exporting speed when exporting files from the internal storage to the microSD card.
- Reduced frequency flicker produced by indoor lighting.
- Optimized auto exposure.
- Optimized zoom adjustment.
- Improved microSD card compatibility.
- Added support so camera view automatically corrects if upside down during livestream.
- Fixed issue: front touchscreen module or the power module discharged even when not in use.
- Fixed occasional issue: microSD card cannot be detected.
- Fixed some minor bugs.

Notes:

- If the update fails, restart DJI Action 2 and DJI Mimo and retry.
- Contact DJI Support if the update fails again.

DJI Action 2 Release Notes

Date:	2021.10.27
Firmware:	v01.01.04.10
DJI Mimo App iOS:	v1.7.0
DJI Mimo App Android:	v1.7.0

What's New?

- Added 4K 100/120fps and 1080P 200/240fps recording for Video and QuickClip modes.
- Added 4K/4x and 1080P/8x recording for Slow-Mo.
- Added support to export shots from internal storage microSD card.
- Added Loop Recording.
- Added Snapshot.
- Added Hyperlapse 1080P (Power Reserve).
- Added audio recording in 1x speed Hyperlapse.
- Added support for DJI Action 2 Macro Lens (required to enable Macro Lens Detection).
- Added support for stabilization in Livestream.
- Added support for Webcam for Mac computer.
- Optimized Automatic Exposure to improve image quality and enhance color performance.
- Optimized stabilization algorithm.
- Optimized power consumption to reduce overheating.
- Optimized battery balancing charging logic.
 - Fixed some minor bugs.

Notes:

- If the update fails, restart DJI Action 2 and DJI Mimo and retry.
- Contact DJI Support if the update fails again.
