

DJI Dock 2 Release Notes

Date:	2025.08.28
Dock Firmware:	v 14.03.07.01
Aircraft Firmware:	v 14.03.07.01
Intelligent Flight Battery:	v 26.03.00.49
Remote Controller Firmware:	v 02.01.07.04
DJI Pilot 2 App:	v 14.1.0.45
DJI Assistant 2 (Enterprise Series):	v 2.1.20
Firmware Update Method	Dock: DJI FlightHub 2 / DJI Assistant 2 Aircraft: DJI FlightHub 2 / DJI Assistant 2 / App Remote Controller: DJI Assistant 2 / App The built-in DJI Pilot 2 App: will be updated with the Remote Controller firmware

- * Make sure to update the firmware version for the aircraft, the remote controller, and the dock. Otherwise, they will not be compatible with each other.

What's new

- Added support to customize the reserved battery level for RTH in DJI FlightHub 2. In strong wind conditions, it is recommended to increase the reserved battery level for RTH to ensure flight safety.

Notes:

To ensure safe use and efficient operation, it is recommended to visit the links below for a comprehensive understanding on safety and product information:

- Visit <https://enterprise.dji.com/dock-2/downloads> to download manuals such as the Quick Installation Guide, Safety Guidelines, and User Manual.
- Visit <https://enterprise.dji.com/dock-2/video> to watch the tutorial videos.
- Visit <https://www.dji.com/flighthub-2> for more information on DJI FlightHub 2.

DJI Dock 2 Release Notes

Date:	2025.04.15
Dock Firmware:	v 13.00.07.02
Aircraft Firmware:	v 13.00.07.02
Intelligent Flight Battery:	v 26.03.00.48
Remote Controller Firmware:	v 02.01.0517
DJI Pilot 2 App:	v 10.1.8.17
DJI Assistant 2 (Enterprise Series):	v 2.1.15
Firmware Update Method	Dock: DJI FlightHub 2 / DJI Assistant 2 Aircraft: DJI FlightHub 2 / DJI Assistant 2 / App Remote Controller: DJI Assistant 2 / App The built-in DJI Pilot 2 App: will be updated with the Remote Controller firmware

* Make sure to update the firmware version for the aircraft, the remote controller, and the dock. Otherwise, they will not be compatible with each other.

What's new

- Fixed some known issue.

Notes:

To ensure safe use and efficient operation, it is recommended to visit the links below for a comprehensive understanding on safety and product information:

DJI Dock 2 Release Notes

Date:	2024.11.28
Dock Firmware:	v 10.01.3205
Aircraft Firmware:	v 10.01.3205
Intelligent Flight Battery:	v 26.03.00.48
Remote Controller Firmware:	v 02.01.0517
DJI Pilot 2 App:	v 10.1.8.17
DJI Assistant 2 (Enterprise Series):	v 2.1.12
Firmware Update Method	Dock: DJI FlightHub 2 / DJI Assistant 2 Aircraft: DJI FlightHub 2 / DJI Assistant 2 / App Remote Controller: DJI Assistant 2 / App The built-in DJI Pilot 2 App: will be updated with the Remote Controller firmware

* Make sure to update the firmware version for the aircraft, the remote controller, and the dock. Otherwise, they will not be compatible with each other.

What's new

- Added support for subscribing to Device Information Notifications. Results of an issue report will be notified through e-mails, and users can view assessment results in DJI FlightHub 2.
- Added support for Vision Assist in DJI FlightHub 2, which can assist in observing the environment and obstacles in the direction of flight.
- Added support for Emergency Landing. Users can land the aircraft in DJI FlightHub 2 in case of an emergency. The aircraft is unable to take off again after the emergency landing. Use with caution.
- Added support for keeping the beacon on when the aircraft is powered off and on again after the beacon has been enabled.

DJI Dock 2 Release Notes

Date:	2024.07.18
Dock Firmware:	v 10.01.1604
Aircraft Firmware:	v 10.01.1604
Intelligent Flight Battery:	v 26.03.00.47
Remote Controller Firmware:	v 02.01.0400
DJI Pilot 2 App:	v 10.0.6.10
DJI Assistant 2 (Enterprise Series):	v 2.1.12
Firmware Update Method	Dock: DJI FlightHub 2 / DJI Assistant 2 Aircraft: DJI FlightHub 2 / DJI Assistant 2 / App Remote Controller: DJI Assistant 2 / App The built-in DJI Pilot 2 App: will be updated with the Remote Controller firmware

* Make sure to update the firmware version for the aircraft, the remote controller, and the dock. Otherwise, they will not be compatible with each other.

What's new

DJI Dock 2

- Added support for Multi-Dock tasks. The aircraft will take off from one dock and land in another dock, allowing for flight tasks in large areas with long distances.
- Added support for embedding subtitles in videos captured by the aircraft. Downloading and playing the video files with embedded subtitles to your local PC are also supported.
- Added the logic to trigger RTH if the dock network connection fails during flight.
- Optimized vision detection logic for propellers to perform the detection process after the aircraft lands.
- 4G private deployment supports the configuration of different IP addresses for the aircraft and the dock.

DJI FlightHub 2

- Optimized flight route functions:
 - a. Added support for geometric routes and slope routes in flight route library for prism- or cylinder-shaped structures mapping and slope mapping.
 - b. Added support to set Panorama when taking photos in Waypoint Route.
 - c. Added support to automatically resume the aircraft camera and gimbal status at the breakpoint when resuming a task from breakpoint.
- Optimized functions for Live Flight Controls. Refer to the [DJI FlightHub 2 Release Note](#) for more information.

DJI Dock 2 Release Notes

Date:	2024.04.07
Dock Firmware:	v 09.02.0108*
Aircraft Firmware:	v 09.02.0108*
Intelligent Flight Battery:	v 26.03.00.44
Remote Controller Firmware:	v 02.01.0322*
DJI Pilot 2 App:	v 9.2.0.26
DJI Assistant 2 (Enterprise Series):	v 2.1.12
Firmware Update Method	Dock: DJI FlightHub 2 / DJI Assistant 2 Aircraft: DJI FlightHub 2 / DJI Assistant 2 / App Remote Controller: DJI Assistant 2 / App The built-in DJI Pilot 2 App: will be updated with the Remote Controller firmware

* Make sure to update the firmware version for the aircraft, the remote controller, and the dock. Otherwise, they will not be compatible with each other.

What's new

Dock

- Added support for Trial Flight. Users can assess the task performance and media file transfer performance after completing dock configuration.
- Added support for Silent Mode. In Silent Mode, the operation noise will be reduced and the cooling performance of the air conditioning system will be slightly affected.
- Added support for transferring and managing the unlocking licenses and updating flight safety database in DJI FlightHub 2.
- Added support for switching between camera views in the dock liveview to check inside or outside the dock.
- Added support for Flight Trajectory Playback. Users can view the flight trajectory in the Task Plan Library after a planned task is completed.
- Optimized functions for Live Flight Controls. Refer to the [DJI FlightHub 2 Release Note](#) for more information.
