

DJI Mini 2 Release Notes

| | |
|-----------------------------|-------------|
| Date: | 2020.12.16 |
| Aircraft Firmware: | v01.01.0700 |
| Remote Controller firmware: | v02.00.1101 |
| DJI Fly App iOS: | v1.2.1 |
| DJI Fly App Android: | v1.2.1 |

What's New?

- Added support to unlock more GEO zones.
- Significantly improved the flying stability in environments with interference, bringing a better flying experience.
- Fixed rare issue: aircraft could not take off in some situations.

DJI Mini 2 Release Notes

| | |
|-----------------------------|-------------|
| Date: | 2020.11.05 |
| Aircraft Firmware: | v01.01.0000 |
| Remote Controller firmware: | v02.00.1100 |
| DJI Fly App iOS: | v1.2.0 |
| DJI Fly App Android: | v1.2.0 |

What's New?

- Added Enhanced Photo.
- Added Trimmed Download.
- Added zoom to video mode.
- Added ability to customize the lighting pattern for the front LED when in default state.
- Changed way to switch between QuickTransfer mode and flight mode to pressing and holding QuickTransfer button for two seconds.
- Optimized QuickTransfer so that a transmission rate of up to 20 MB/s can be achieved in an environment without interference.
- Optimized exposure for panoramic photos in some scenarios.
- Optimized logic for Return to Home (RTH). The default RTH altitude is adjusted to 100 m and the aircraft will hover in place if the horizontal distance from the Home Point is less than 20 m.
- Optimized logic of Low Battery RTH.
- Fixed rare issue: the gimbal vibrated while recording in Normal mode.
- Added support for DJI RC-N1 Remote Controller. The DJI RC-N1 Remote Controller can be used with DJI Mini 2 as well as Mavic Air 2 (requires DJI Fly v.1.2.0 or later).
