

## DJI Power 1000 Release Notes

---

Date:	2025.07.18
Firmware Version:	v01.00.1700

---

### What's New

- Improved stability.
- Fixed some minor bugs.

### Notes:

If the update fails, follow the steps for troubleshooting.

1. Disconnect the computer and all connected devices from the power station.
2. Press and hold the power button for more than five seconds to power off the power station, and exit DJI Assistant 2 (Power Series).
3. Press and hold the AC button and the power button simultaneously. Connect the power station to the computer with a USB-C cable.
4. Connect the power station to an AC power outlet when updating the firmware of DJI Power 1000 with a rated voltage of 100 V or 120 V. Make sure to keep it connected during the updating process.
5. Retry updating the firmware to the latest version using DJI Assistant 2 (Power Series).

## DJI Power 1000 Release Notes

---

Date:	2025.01.15
Firmware Version:	v01.00.1500

---

### What's New

- Added support for DJI Power 1.8kW Solar/Car Super Fast Car Charger to meet the need of high-power charging in solar power or driving scenario.

### Notes:

If the update fails, follow the steps for troubleshooting.

1. Disconnect the computer and all connected devices from the power station.
2. Press and hold the power button for more than five seconds to power off the power station, and exit DJI Assistant 2 (Power Series).
3. Press and hold the AC button and the power button simultaneously. Connect the power station to the computer with a USB-C cable.
4. Connect the power station to an AC power outlet when updating the firmware of DJI Power 1000 with a rated voltage of 100 V or 120 V. Make sure to keep it connected during the updating process.
5. Retry updating the firmware to the latest version using DJI Assistant 2 (Power Series).

## DJI Power 1000 Release Notes

---

Date:	2024.12.20
Firmware Version:	v01.00.0901

---

### What's New

- Fixed some minor bugs.

### Notes:

If the update fails, follow the steps for troubleshooting.

1. Disconnect the computer and all connected devices from the power station.
2. Press and hold the power button for more than five seconds to power off the power station, and exit DJI Assistant 2 (Power Series).
3. Press and hold the AC button and the power button simultaneously. Connect the power station to the computer with a USB-C cable.
4. Connect the power station to an AC power outlet when updating the firmware of DJI Power 1000 with a rated voltage of 100 V or 120 V. Make sure to keep it connected during the updating process.
5. Retry updating the firmware to the latest version using DJI Assistant 2 (Power Series).

## DJI Power 1000 Release Notes

---

Date:	2024.11.29
Firmware Version:	v01.00.0900

---

### What's New

- Added support for DJI Power 1kW Super Fast Car Charger to meet the need of high-power charging in driving scenario.
- Added support for DJI Power Dongle. DJI Power 1000 can connect to the DJI Home app after installing the dongle.
- Added support for DJI Power Expansion Battery 2000. DJI Power 1000 can connect up to 5 expansion batteries, expanding the total capacity to 11264 Wh.

### Notes:

If the update fails, follow the steps for troubleshooting.

1. Disconnect the computer and all connected devices from the power station.
2. Press and hold the power button for more than five seconds to power off the power station, and exit DJI Assistant 2 (Power Series).
3. Press and hold the AC button and the power button simultaneously. Connect the power station to the computer with a USB-C cable.
4. Connect the power station to an AC power outlet when updating the firmware of DJI Power 1000 with a rated voltage of 100 V or 120 V. Make sure to keep it connected during the updating process.
5. Retry updating the firmware to the latest version using DJI Assistant 2 (Power Series).
