DJI Power 2000 Release Notes

Date:	2025.07.31
Firmware Version:	v 01.00.12.00

What's New

- Added support for Energy Saver mode. Users can enable Scheduled Periods or Grid-Tied ESS* in DJI Home App. The power station can be used for energy storage, helping to optimize the energy usage and save on electricity costs.

*   Grid-Tied functions are only supported in some countries and regions. Visit the link for more details https://www.dji.com/power-2000/faq.

Notes:

If the update fails, follow the steps for troubleshooting.
1.   Disconnect the computer and all connected devices from the power station.
2.   Press and hold the power button for more than five seconds to power off the power station, and exit DJI Assistant 2 (Power Series).
3.   Press and hold the AC button and the power button simultaneously. Connect the power station to the computer with a USB-C cable.
4.   Retry updating the firmware to the latest version using DJI Assistant 2 (Power Series).
