

DJI Mic Mini 2 Release Notes

Date:	2026.04.21
Firmware Version:	V02.03.17.00

What's New

- Fixed some known issues.

Notes

DJI Mic Mini 2 can be updated via the DJI Mimo app using the following methods:

1. Update via the adapter (Android Only)

- a. Ensure the transmitter and receiver are linked.
- b. Attach the receiver to the phone using the adapter.
- c. Open the DJI Mimo app and tap About Device to view information.
- d. Tap the firmware version to download and install the latest version.

2. Update via Bluetooth

- a. Connect the transmitter and receiver* separately to the DJI Mimo app via Bluetooth.
- b. Open the DJI Mimo app and tap About Device to view information.
- c. Tap the firmware version to download and install the latest version.

* The receiver supports Bluetooth connectivity with the DJI Mimo app exclusively when used with iOS devices.
