

Osmo Pocket Release Notes

Date:	2019.01.30
Firmware:	v1.4.0.20 (this firmware is approx. 51MB)
DJI Mimo App iOS:	v1.0.4
DJI Mimo App Android:	v1.0.4

What's New?

- Added pro settings when using Osmo Pocket without DJI Mimo.
- Added option to switch between AFC and AFS when using Osmo Pocket without DJI Mimo.
- Added Cine-Like color mode to video mode.
- Fixed issue: after powering off, the gimbal attitude of some devices was in an abnormal position to fit into the cover.
- Optimized face detection.
- Reduced focus pulsing in some situations, such as when shooting the sky or at night.
- Increased autofocus speed when moving Osmo Pocket quickly.

Notes:

- Use auto calibration after updating the firmware.
- If the update fails, restart Osmo Pocket and DJI Mimo, and retry.

Osmo Pocket Release Notes

Date:	2019.01.07
Firmware:	v1.3.0.20 (this firmware is approx. 51MB)
DJI Mimo App iOS:	v1.0.2
DJI Mimo App Android:	v1.0.2

What's New?

- Added 1080p 25/50fps and 4K 25/50fps resolution to basic settings.
- Added support to shoot 3x3 panorama photos when the tilt axis is between -20° and 80°.
- Optimized FaceTrack in DJI Mimo.
- Increased the time that the gimbal is in position to fit into the cover from five to eight seconds.
- Optimized the focus in ActiveTrack and when detecting faces.
- Optimized ActiveTrack when the gimbal is in Portrait and Flashlight mode.
- Fixed the issue where a red tint appeared when using Auto White Balance (AWB) in scenes that were predominantly green.
- Fixed the issue affecting some devices where the charging time was slow.

Notes:

- Use auto calibration after updating the firmware.
- If the update fails, restart Osmo Pocket and DJI Mimo, and retry.

Osmo Pocket Release Notes

Date:	2018.12.11
Firmware:	v1.2.0.20 (this firmware is approx. 51MB)
