

DJI Osmo Nano Release Notes

Date:	2025.11.24
Firmware Version:	v01.01.16.50
DJI Mimo App iOS:	v2.6.0
DJI Mimo App Android:	v2.6.0

What's New

- Added support for playback when the camera is used separately from the vision dock.
- Added support for liveview on the vision dock when the camera is linked to a DJI Mic transmitter and used separately from the vision dock, allowing you to preview the framing before recording.
- Added Natural Wide to the Field of view (FOV) options, which reduces image distortion while maintaining a wide-angle view.
- Added HorizonCorrection to the EIS mode options in video mode, which automatically corrects horizon shakes within $\pm 15^\circ$.
- Added album password lock for enhanced privacy protection. After setting, a password is required for first playback after powering on.
- Added Basic style for Always On Display.
- Optimized camera power consumption and battery life.
- Fixed some minor bugs.

Notes:

- If the update fails, follow the steps for troubleshooting.
 1. Restart the camera and DJI Mimo.
 2. Enable Wi-Fi and Bluetooth on the mobile device.
 3. Connect the camera to DJI Mimo and try the update again.Contact DJI Support if the update fails again.
