

## 2015.8.6

### Overview

ESC firmware version updated to: v1.5

### Major Updates

Improved compatibility with the DJI S900 flying platform and DJI A2 flight control system, including enhanced flight stability and simplified gain value adjustments.

### Notice

Re-adjust the gain values after updating the ESC firmware. The table below shows typical gain values for the E1200 Pro when used on the DJI S900 flying platform with the DJI A2 flight control system, and at a takeoff weight of 8 kg:

Basic			Attitude		
Pitch	Roll	Yaw	Pitch	Roll	Vertical
90%	90%	80%	130%	130%	100%
