| **Date:** | **2015/02/03** |
| **ESC firmware version:** | **4.06** |

## What´s new?

The ESC Software has been updated to Version 4.06.

This enhances the Phantom 1´s performance through:

1.  An optimized drive algorithm, which improves responsiveness and stability.

2.  Factory calibration, which ensures a consistent idle speed for each motor.
