Date :	January 24, 2014
PHANTOM 2 FPV HUB Kit Instruction :	V1.0
PHANTOM 2 Prop Guard Attachment Instructions :	V1.00

January 24, 2014 PHANTOM 2 kits

The following kits have been released for the DJI Phantom 2.

PHANTOM 2 FPV HUB	
In the kit	FPV HUB, cables and instructions
Function	Customized ports and cables for iOSD mini, iOSD Mark II or AVL58.
Feature	FPV HUB 's integrated iOSD mini , iOSD Mark II or AVL58 ports, connecting directly to the PHANTOM 2 central board and built-in main controller through an 8-Pin cable. This simplifies connecting these items and eliminates the need for soldering.
PHANTOM 2 Camera Mounting Bracket	
In the kit	Camera mounting bracket and screws
Function	Attachment for GoPro cameras and others.
Feature	Gimbal free camera attachment for GoPro and similar cameras.
PHANTOM 2 Prop Guard	
In the kit	4 prop guards and instructions
Function	Fitted under the rotors to prevent damage to rotors or surroundings.
Feature	Easy to attach, lightweight, safe and reliable.

Important Notes:

1. Make sure the PHANTOM 2 weighs no more than 1350g after mounting prop guards. Any extra weight will compromise flight capabilities causing a safety risk. The total weight of a PHANTOM 2 with H3-2D gimbal, iOSD and wireless video transmitter will be over 1300g, prop guards are not recommended for similarly equipped PHANTOM 2s.
