

2017.6.23

Overview

1. All-in-One Firmware Version: v1.6.50
2. DJI GO app iOS Version: v3.1.11
3. DJI GO app Android Version: v3.1.5

What's New

1. Updated No-Fly Zone Management.
2. For increased safety, the flight is restricted to a height of 30 m and distance of 50 m when not connected or logged into the app during flight, including DJI GO and all apps compatible with DJI aircraft.

Notes

- Please note that firmware update may reset various Main Controller Settings, such as the RTH Altitude and Maximum Flight Distance, to factory defaults. Before the update, take note of your preferred DJI GO settings, and readjust them after the update to suit your preference.
- DO NOT turn off the remote controller or exit the DJI GO app during the update process.

2016.5.9

Overview

1. All-in-One Firmware Version: v1.5.40
2. DJI GO app iOS Version: v2.8.0
3. DJI GO app Android Version: v2.8.0

What's New

1. Improved aircraft stability through optimized flight controller logic.
2. Improved the video downlink reconnection speed during flight.

Notes

- DO NOT turn off the remote controller or exit the DJI GO app during the update process.

2016.4.7

Overview

1. All-in-One Firmware Version: v1.4.30
2. DJI GO app iOS Version: v2.7.1
3. DJI GO app Android Version: v2.7.2

What's New

1. Improved aircraft stability through optimized flight controller logic.
2. Optimized gimbal parameters.

Notes

- DO NOT turn off the remote controller or exit the DJI GO app during the update process.

2016.3.15

Overview

1. All-in-One Firmware Version: v1.3.20
2. DJI GO app iOS Version: v2.7.1
3. DJI GO app Android Version: v2.7.0

What's New

1. Optimized compass accuracy.
2. Fixed unprompted exits from HDR mode.

Notes

- DO NOT turn off the remote controller or exit the DJI GO app during the update process.

2016.1.25

Overview

1. All-in-One Firmware Version: v1.2.10
2. DJI GO app iOS Version: v2.5.1
3. DJI GO app Android Version: v2.5.1

What's New

1. Improved battery reliability when using the aircraft in cold conditions.
2. Optimized battery management.
3. Optimized camera stability.

Notes

- You are advised to update all your Intelligent Flight Batteries with this All-in-One firmware. For details on how to update the batteries, refer to *How to Update the Firmware* on the product page.
- Aircraft parameters in the DJI GO app, including the altitude and distance limits, gain values, and failsafe RTH altitude, will be restored to their default values after the update. Re-configure the parameters if necessary.
- DO NOT turn off the remote controller or exit the DJI GO app during the update process.
