Notes:

- Zenmuse Z30 firmware can only be updated via the Micro SD card.
- This firmware is only for updating the Zenmuse Z30 and does not affect the aircraft, Intelligent Flight Battery, or other components.
- Ensure your aircraft's Intelligent Flight Battery is fully charged and that there are no other firmware files on the Micro SD card before updating.
- This update takes about five minutes to complete. The aircraft will beep when update finishes.

Zenmuse Z30 Release Notes

Date :	2017.06.22
Zenmuse Z30 Firmware :	v1.0.0.37

What's New?

[General]

- Added A3 flight controller support.
- The camera will now record its zoom level before powering off and return to that level when powered back on.
- Optimized gimbal self-checking.
- Optimized firmware updating.
- Fixed an issue where the camera couldn't zoom when tapping to zoom.
- Fixed an issue where timed shots weren't taken after the selected time interval.
- Decreased the amount of time it takes to enter the Playback menu.
- Fixed an issue where the app would indicate a connection failure when entering the Playback menu with a slave remote controller.

[M200 Series]

- Added support for the M200 series (M200, M210, and M210-RTK).
- Users can now control the Z30 as one of two downward gimbals or a single upward gimbal with the M210 and M210-RTK.
- M200 Series camera features are now available with the Zenmuse Z30, including Spotlight Pro, image stabilization, and more.
- Added support for the DJI Pilot app and DJI GO 4 app.
- Added the option to turn off the front LEDs when capturing photos and recording video.

Notes:

- Zenmuse Z30 firmware can only be updated via the Micro SD card.
- This firmware is only for updating the Zenmuse Z30 and does not affect the aircraft, Intelligent Flight Battery, or other components.
- Ensure your aircraft's Intelligent Flight Battery is fully charged and that there are no other firmware files on the Micro SD card before updating.
- This update takes about five minutes to complete. The aircraft will beep when update finishes.
